# CHAIRMAN'S STATEMENT

To Our Shareholders,

In the first half of FY2014, NWCL recorded a profit attributable to equity holders of the Company of HK\$3,394.59 million, representing a year-on-year increase of 46%. GFA sold through its property sales operation reached 771,109 sq m with gross sales proceeds registered at approximately RMB9,714.2 million. Overall gross profit margin for property sales maintained at 50.9%.

In the second half of 2013, the European and the United States' economies were recovering slowly and Japan's economy showed signs of life thanks to the implementation of aggressive quantitative easing policies, whereas Chinese economy remained stable as a whole.

With the gradual stabilisation of the employment and economic conditions of the United States, the Federal Reserve Board of the United States commenced tapering measure at the end of 2013. After two rounds of meetings, it was determined that the treasury bond purchase programme would be cut down in phases, from US\$85 billion per month to the recent monthly level of US\$65 billion. This policy seems not making any significant impact on the financial market, but the market was concerned about the pace of recovery of the economy of the United States and the stance of the newly appointed Federal Reserve Chairperson towards the future pace of tapering.

In the first half of 2013, there were signs of downward pressure on China's economy. The Central Government announced the "Stable-growth" policy, which clearly indicated a minimum economic growth rate of 7.5%, in order to release a clear signal of economic stabilisation to the market and restore corporate confidence in Mainland China. Supported by a brighter international market environment and the revival of investments in properties and infrastructures, the gross domestic product ("GDP") of the third quarter of 2013 reversed the downward trends of the previous two quarters, which recorded a year-on-year increase of 7.8%, whereas the GDP growth of the fourth quarter and the whole year of 2013 remained at the level of 7.7% as compared to the corresponding period last year, demonstrating a stable trend of economic development.

The Third Plenary Session of the 18th Communist Party of China Central Committee held in November commenced the most comprehensive and thorough reform since China's 30 years of liberalisation and reform. The Central Government clearly pointed out the market-oriented reform direction to give a greater role to the market in resource allocation. This direction would facilitate the diversification of state-owned assets, the reform of management and operating systems as well as the deepening of fiscal and tax reform.

In the subsequently-held Central Economic Work Conference, the Central Government confirmed the main economic missions of Mainland China in 2014 pursuant to the reform blueprint formulated in the Third Plenary Session. The conference indicated that although Chinese economy has experienced a relatively stable growth in 2013, certain domestic industries were still facing serious overcapacity and the credit risks of local governments continued to exist. Therefore, curtailing excess production capacity and controlling local credit risks would be the main tasks of the Central Government in 2014. On the other hand, the Central Government would maintain the continuity and stability of the fiscal and monetary policies and continue to implement active fiscal policies as well as sound and prudent monetary policies. Liquidity would be maintained at a moderate but slightly tightened level, whereas efforts in deleveraging the financial institutions in Mainland China would be enhanced with a view to stifling the rampant growth of local financing and shadow banking. In the medium to long term, these policies would contribute to the structural transformation of China's economy, thereby enhancing the future economic growth potential. However, China's economy may have to suffer the throes brought about by reform and transformation in the short run.

In the second half of 2013, the housing prices of the majority of cities in Mainland China continued to increase generally. The housing demand was relatively vigorous and the increases in housing prices were particularly obvious in first-tier cities such as Beijing, Shanghai, Guangzhou and Shenzhen. In terms of newly-built commodity housing, the growth of housing prices of the four major first-tier cities have all recorded a double-digit increase on a year-on-year basis. On the other hand, the area of commodity housing sold nationwide in 2013 recorded a year-on-year increase of 17.3%, which reflected the strong and rigid demand of home buyers in most cities spurred by the continuous economic growth and increase in household income in Mainland China despite the strict property control measures. In the first three quarters of 2013, due to the moderate surge in housing prices in certain cities, many cities released new local property control measures in the fourth quarter in order to coordinate with the property control policies of the Central Government. Such local measures mainly aimed at raising the proportion of down payment and standards of purchase restrictions. To sum up, the new leadership of the Central Government has not released stricter property control measures during the year, but advocated to regulate the property market through “market-oriented” measures and put forth effort in considering the setting up of “long-term mechanism” to control the property market. The market expected that following the establishment of the relevant “long-term mechanism”, the Central Government would gradually reduce the current administrative intervention measures in the long term, which would be beneficial to the enduring and healthy development of the property market.

Leveraging on the extensive market experience, the management team of NWCL has continuously promoted the business development of the Group in Mainland China for the past many years. In the future, the Group will capture the opportunities brought about by the national urbanisation development strategy and maintain a healthy balance in the business development of the first-, second- and third-tier cities. Save for the boutique residential projects with higher affordability, the Group will continue to actively develop mid- to high-end products with good quality in order to meet the rigid demand of first-time home buyers and the demand for improved housing of middle- and high-income classes. On the other hand, the Group will insist on adopting the concept of “sustainable development” as the core value of the Group and infusing the concept into our business development. The Group will be more active in achieving environmentally friendly design and healthy lifestyle through our projects and attaching local cultural perspective to them so as to create blissful living environment for customers.

# MANAGEMENT DISCUSSION AND ANALYSIS

## Business Review

During the period under review, the Mainland China property market continued to sustain a steady growth with the support from concrete and genuine housing demand. The New Five Directives (「新國五條」) introduced since February 2013 proven to have limited effect on the market whereby the overall sale volume of residential units and prices in major cities continued at an upward trend throughout the period under review. Nevertheless, the Central government is determined to keep the continuity and stability of tightening policies and focusing on increasing land and housing supply of affordable houses. In the fourth quarter of 2013, local governments of major cities such as Beijing, Shanghai and Shenzhen and some second-tier cities which has been experiencing huge price hikes, introduced stricter measures to curb soaring property prices, including further increasing the down payment ratio and raising the threshold requirements for non-local home-buyers to be qualified for home purchase. Moreover, some Mainland banks have been slowing down their approval of mortgage lending amid cash-crunch conditions at the end of 2013.

During the period under review, the Group's secured contracted sales reached RMB9,320 million with gross floor area ("GFA") of 648,918 sq m, representing a year-on-year increase of 10% and 4% in gross sales value and sales volume respectively. The increase in sales volume reflected positive signs of sentiment revival and gradual improvement in market condition supported by concrete and genuine housing demand. Included in the remaining contracted sales secured and to be recorded, approximately 405,586 sq m GFA with gross sales proceeds of approximately RMB6,273 million are for those projects scheduled to be completed within the next 6 months and their corresponding sales revenues shall be recorded in the consolidated income statement of the second half of FY2014.

For the six months ended 31 December 2013, the Group posted a profit attributable to shareholders of HK\$3,394.59 million which represents a year-on-year increase of 46% from HK\$2,321.07 million achieved in six months ended 31 December 2012. The Group's core profit before revaluation, exchange difference, impairment and amortisation of intangible assets for the first half of FY2014 reported at HK\$2,914.53 million, representing an increase of 103% from HK\$1,433.45 million recorded in the corresponding period last year. The increase was largely contributed from property sales resulting from increase in completion and recorded sales by 150% and 189% respectively. The increase in profit attributable to shareholders was attributable to the increase in core profit from aforementioned property sales.

## Property sales

During the period under review, the Group's attributable operating profit ("AOP") from property sales operation rose 94% from an AOP of HK\$1,596.85 million achieved in the first half of FY2013 to HK\$3,091.68 million. The overall recorded property sale volume of the Group for the period under review surged by 188% to 771,109 sq m with gross sale proceeds registered at approximately RMB9,714.2 million. The increase in AOP from property sales operation was mainly due to increase in property projects completion and recorded sales volume by over 150% and 189% respectively during the period under review.

The Group's overall gross profit margin achieved during the period under review dropped moderately to 50.9% from 51.2% achieved in the first half of FY2013, whilst the average selling price for the period under review decreased by RMB4,962 per sq m compared to RMB18,035 per sq m recorded in the last corresponding period to RMB13,073 per sq m. The slight decrease in overall gross profit margin and dropped in average selling price was mainly due to difference in recorded sale mix of both periods. During the period under review, approximately 16% of the total recorded sale amount was from property projects in third-tier cities, comparing to only 1% of recorded sales amount in the last corresponding period was from such third-tier cities.

# MANAGEMENT DISCUSSION AND ANALYSIS

## Rental operation

During the period under review, the Group's rental operation recorded an AOP of HK\$292.20 million, representing a 5% increase compared to that of the corresponding period last year. The increase in AOP from rental operation was mainly attributable to increase in rental contributions from full operation of Shanghai Hong Kong New World Tower K11 Mall and increase in AOP from Wuhan New World International Trade Tower resulted from increase in average rental rate upon renewal of tenancy.

During the period under review, the Group completed 17,621 sq m retail properties and 240,354 sq m resident car park space.

## Hotel operation

During the period under review, the AOP from hotel operation recorded at a loss of HK\$84.94 million as opposed to a loss of HK\$68.39 million recorded in the corresponding period last year. The decrease in overall AOP from hotel operation was mainly due to the pre-operating expenses incurred for newly completed hotels, namely, New World Beijing Hotel and New World Guiyang Hotel which were scheduled to be opened in the current financial year. However, excluding New World Beijing Hotel which has soft-opened in November 2013, the occupancy and room rates of the Group's hotels portfolio has improved during the period under review. The negative impact of the Central Government's anti-corruption initiatives introduced since the first half of 2013 continued to affect the overall performance of the Group's hotel operation.

The Group's hotel portfolio currently comprises seven hotels with 2,549 rooms.

As at 31 December 2013, the Group's committed unutilised bank loan facilities amounted to HK\$3,719.56 million (30 June 2013: HK\$3,424.27 million).

## Capital expenditure commitments

The capital expenditure commitments of the Group as at 31 December 2013 were HK\$2,955,666,000 (30 June 2013: HK\$3,233,588,000) of which HK\$2,741,545,000 (30 June 2013: HK\$2,900,509,000) were contracted but not provided for in the financial statements and HK\$214,121,000 (30 June 2013: HK\$333,079,000) were authorised but not contracted for. The sources of funding for capital commitments are internally generated resources and bank loan facilities.

## Foreign currency exposure

The Group conducts its business mainly in Renminbi. Other than certain bank balances and borrowings denominated in Hong Kong dollar and United States dollar, the Group does not have any material direct exposure to foreign exchange fluctuations. During the period under review, the Group has not used any foreign currency derivative product to hedge its exposure to currency risk.

## Contingent Liabilities

As at 31 December 2013, the Group has contingent liabilities of approximately HK\$2,879,414,000 (30 June 2013: HK\$1,640,794,000) relating to corporate guarantees given in respect of bank loan facilities extended to certain joint ventures.

As at 31 December 2013, the Group had provided guarantees in respect of mortgage facilities granted by certain banks relating to the mortgage loans arranged for certain purchasers of properties developed by certain subsidiaries of the Group and the Group's attributable portion of outstanding mortgage loans under these guarantees amounted to HK\$1,883,736,000 (30 June 2013: HK\$1,595,251,000).

## Details of Charges on Group's Assets

As at 31 December 2013, the Group's property, plant and equipment, investment properties, land use rights, properties held for development and properties under development of HK\$1,484,362,000 (30 June 2013: HK\$395,817,000), HK\$5,433,271,000 (30 June 2013: HK\$5,400,318,000), HK\$238,024,000 (30 June 2013: HK\$238,343,000), HK\$367,982,000 (30 June 2013: HK\$813,670,000) and HK\$4,600,570,000 (30 June 2013: HK\$4,315,781,000) respectively have been pledged as securities for short term and long term bank borrowings.

## Major Acquisition or Disposal

No major acquisition or disposal undertaken by the Group during the period under review.

## Employees and Remuneration Policy

As at 31 December 2013, the Group has 9,626 full-time employees. Total staff related costs incurred during the period under review were HK\$306.07 million (2012: HK\$251.31 million), of which retirement benefits were included. Remuneration of employees is reviewed annually based on assessment of individual performance. Discretionary year-end bonus was paid to employees based on individual performance.

## Outlook

After the new leadership of the Central Government came into power, it was clearly addressed that the market should play a determining role in resource allocation, which implied that among the property control measures, “market-oriented” measures will receive more focus and administrative intervention will be gradually reduced. On the other hand, the Ministry of Housing and Urban-Rural Development and the National Development and Reform Commission have commenced the research on the long-term mechanism for property control which was primarily about establishing the financial and taxation, as well as legal systems targeted at real estate market, such as property taxes. The goals of market adjustment and promotion of healthy development of property market could be achieved through conducting market rules. Since such long-term mechanism involved various levels such as legal, taxation and information regarding property rights, it was expected that such measures would not be adopted nationally in the near future. However, the market is concerned about whether the pilot property tax programme will be expanded to other cities and is closely monitoring the specific provisions of the relevant measures in order to evaluate the impact on the property market.

The Central Economic Work Conference of the previous year has stated clearly that efforts should be paid to satisfy the basic housing need. In 2014, the construction of affordable housing such as low-rental residential housing and public rental housing will be increased and the transformation of shanty towns will be accelerated. Since 2011, the construction of 24 million units of affordable housing in various types has been commenced. On such extrapolation, the goal of constructing 36 million units of affordable housing under the “Twelfth Five-year” Plan can be achieved as long as the annual average number of newly-commenced affordable housing in 2014 and 2015 can be guaranteed at 6 million units. Furthermore, the Ministry of Land and Resources has indicated that the primary tasks in 2014 would be to improve the control of land supply. To sum up, the national housing land supply was 138,200 hectares in 2013, representing a year-on-year increase of 24.7%. It shows that the focus of the property control measures was shifting from suppressing demand and property prices to increasing the housing supply in order to reach a balance of supply and demand in the property market.

Generally speaking, the property control measures in 2014 will continue to be characterised by regional differences. The control in first-tier and certain core second-tier cities will still be strict, and the current strict purchase restriction, price limitation and relatively tight mortgaging financing policies will continue to be enforced in the soon future. On the contrary, the new urbanisation scheme proposed by the new leadership promotes the development of metropolitan areas so as to reduce the population pressures of extra-large cities. Therefore, the property control measures in second- and third-tier cities will become relatively loose. This will be beneficial to the long-term development of certain second- and third-tier cities with economic potential, and policy risks faced by such areas will be relatively low.

# MANAGEMENT DISCUSSION AND ANALYSIS

Currently, the Group has expanded into more than 20 first-, second- and third-tier cities in Mainland China with a landbank of over 25 million sq m, of which about 80% of residential floor area is located in second- and third-tier cities. In order to grasp market opportunities while diversifying policy risks at the same time, the Group will maintain a healthy balance of business coverage in first-, second- and third-tier cities, and it is expected that the future gross profit margin will be maintained at a healthy level. The Group will continue to actively promote the development of product standardisation and the regional centralised procurement systems with a view to achieving the goals of accelerating the project development cycles and optimising cost control. In addition, the Group will keep up with changes in the market, launch products which meet the needs of customers in a timely manner and speed up sales turnover. Save for paying efforts to enhance the quality of products and services continuously, the Group will adhere to the objective of “sustainable development” and integrate the elements of green lives and human natures into the project design in order to create blissful living environment for customers.

In 2014, China’s economic reform will march into a new and important stage. While reform will bring about challenges, urbanisation will bring opportunities to the property market simultaneously. Therefore, the Group will take a prudent and optimistic view towards the prospects of the property market. The strong financial strength and extensive market experience of the Group as well as its national brand with good reputation will enable the Group to cope with market challenges and capture opportunities, and continue to create value for the shareholders.

# INDEPENDENT AUDITOR'S REVIEW REPORT

羅兵咸永道

**TO THE BOARD OF DIRECTORS OF NEW WORLD CHINA LAND LIMITED**

*(incorporated in the Cayman Islands with limited liability)*

## Introduction

We have reviewed the interim financial information set out on pages 16 to 39, which comprises the condensed consolidated statement of financial position of New World China Land Limited (the "Company") and its subsidiaries (together, the "Group") as at 31 December 2013 and the related condensed consolidated income statement, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated cash flow statement for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting".

# NOTES TO THE INTERIM FINANCIAL STATEMENTS

## 1. Basis of Preparation

These unaudited condensed consolidated interim financial statements (the “interim financial statements”) for the six months ended 31 December 2013 have been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants and Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”). The interim financial statements should be read in conjunction with the annual financial statements for the year ended 30 June 2013, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”).

- (a) Except as describe below, the accounting policies applied in the preparation of these interim financial statements are consistent with those set out in the annual financial statements for the year ended 30 June 2013.

The Group has adopted the following new or revised standards and amendments to standards which are relevant to the Group’s operations and are mandatory for the financial year ending 30 June 2014:

HKAS 27 (Revised 2011)	Separate Financial Statements
HKAS 28 (Revised 2011)	Associates and Joint Ventures
HKFRS 7 (Amendment)	Financial Instruments: Disclosures — Offsetting Financial Assets and Financial Liabilities
HKFRS 10	Consolidated Financial Statements
HKFRS 11	Joint Arrangements
HKFRS 12	Disclosure of Interests in Other Entities
HKFRS 13	Fair Value Measurements
Amendments to HKFRS10, HKFRS 11 and HKFRS 12	Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance
Annual Improvements Project	Annual Improvements to 2009–2011 Cycle

HKFRS 10, “Consolidated financial statements”. Under HKFRS 10, subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group has power over an entity, is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect these returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

HKFRS 11, “Joint arrangements”. Under HKFRS 11, investments in joint arrangements are classified either as joint operations or joint ventures, depending on the contractual rights and obligations each investor has rather than the legal structure of the joint arrangement. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using the equity method.

Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income based on the relevant profit sharing ratios which vary according to the nature of the joint ventures set out as follows:

- (i) **Equity joint ventures/joint ventures in wholly foreign owned enterprises**  
Equity joint ventures/joint ventures in wholly foreign owned enterprises are joint ventures in respect of which the capital contribution ratios of the venturers are defined in the joint venture contracts and the profit sharing ratios and share of net assets of the ventures are in proportion to the capital contribution ratios.
- (ii) **Co-operative joint ventures**  
Co-operative joint ventures are joint ventures in respect of which the profit sharing ratios of the venturers and share of net assets upon the expiration of the joint venture periods are not in proportion to their capital contribution ratios but are as defined in the joint venture contracts.
- (iii) **Companies limited by shares**  
Companies limited by shares are limited liability companies in respect of which each shareholder's beneficial interests therein is in accordance with the amount of the voting share capital held thereby.

When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

The adoption of the new and revised standards and amendments to the existing standards does not have a significant impact on the results and financial position of the Group.

# NOTES TO THE INTERIM FINANCIAL STATEMENTS

## 1. Basis of Preparation *(continued)*

- (b) The following new or revised standards, amendments to standards and interpretation are mandatory for accounting periods beginning on or after 1 January 2014 or later periods but which the Group has not early adopted:

### *Effective for the year ending 30 June 2015 or after*

HKFRS 9	Financial Instruments
HKFRS 14	Regulatory Deferral Accounts
HKFRS 7 and HKFRS 9 (Amendments)	Financial Instruments: Disclosures — Mandatory Effective Date of HKFRS 9 and Transition Disclosures
Amendments to HKAS 19 (Amendments)	Employee Benefits: Defined Benefit Plans — Employee Contributions
Amendments to HKFRS 10, HKFRS 12 and HKAS 27 (Revised 2011)	Investment Entities
HKAS 32 (Amendment)	Financial Instruments: Presentation — Offsetting Financial Assets and Financial Liabilities
HKAS 36 (Amendment)	Recoverable Amount Disclosures for Non-Financial Assets
HKAS 39 (Amendment)	Novation of Derivatives and Continuation of Hedge Accounting
HK (IFRIC)-Int 21	Levies
Annual Improvements Project	Annual Improvements to HKFRSs 2010–2012 Cycle
Annual Improvements Project	Annual Improvements to HKFRSs 2011–2013 Cycle

The Group has already commenced an assessment of the impact of these new or revised standards, amendments to standards and interpretation, certain of which may be relevant to the Group's operation and may give rise to changes in accounting policies, changes in disclosures and remeasurement of certain items in the financial statements.

## 2. Revenues and Segment Information

- (a) The Group is principally engaged in investment in and development of property projects in the People's Republic of China (the "PRC"). Revenues comprise turnover which include gross proceeds from sale of properties, revenue from rental and hotel operation, property management services fee income, project management fee income, hotel management services fee income and contracting services income.

	6 months ended 31 December	
	2013 HK\$'000	2012 HK\$'000
Sale of properties	10,480,118	5,585,747
Rental income	366,608	357,508
Income from hotel operation	187,804	186,445
Property management services fee income	214,278	167,642
Project management fee income	59,004	22,504
Hotel management services fee income	239,701	228,349
Contracting services income	336,914	—
	11,884,427	6,548,195

- (b) The chief operating decision-maker has been identified as the executive committee. This committee reviews the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports.

The committee considers the business from the perspective of the services and products. The management assesses the performance of property sales, rental operation, hotel operation, property management services operations and hotel management services operations. Other operations include contracting services and ancillary services in property projects. In the current period, previously reported operating segments have been aggregated and the corresponding segment information has been restated to conform with current period presentation.

The executive committee assesses the performance of the operating segments based on a measure of attributable operating profit ("AOP") before finance costs and after taxation charge. This measurement basis excludes the effects of changes in fair value of investment properties, gains and losses from changes in group structure, net foreign exchange gains, amortisation and impairment of intangible assets acquired from business combinations, income and expenses at corporate office and deferred tax charge on undistributed profits. Interest income is included in the result of each operating segment that is reviewed by the executive committee.

Sales between segments are carried out in accordance with terms agreed by the parties involved. The revenue from external parties reported to the executive committee is measured in a manner consistent with that in the condensed consolidated income statement.

Segment assets consist primarily of property, plant and equipment, investment properties, land use rights, properties held for/under development, intangible assets, prepayments, debtors and other receivables, amounts due from related companies and completed properties held for sale. They exclude cash and bank balances, available-for-sale financial assets and prepayment for proposed development projects held and managed at corporate office. These are part of the reconciliation to total assets on the condensed consolidated statement of financial position.

Segment liabilities comprise mainly creditors and accruals, deposits received on sale of properties and amounts due to related companies. They exclude bank and other borrowings, deferred tax liabilities, taxes payable, other creditors and accruals at corporate office. These are part of the reconciliation to total liabilities on the condensed consolidated statement of financial position.

The majority of the assets and operations of the Group are located in the PRC. Revenues are mainly derived from the PRC. Non-current assets other than financial instruments are mainly located in the PRC.

Notes:

1. The share options are exercisable within five years commencing from one month after the dates of grant, provided that the maximum number of share options that can be exercised during each anniversary year is 20% of the total number of the share options granted together with any unexercised share options carried forward from the previous anniversary years.
2. The weighted average closing price of the shares immediately before the dates on which share options were exercised under the 2002 Share Option Scheme and the 2011 Share Option Scheme was HK\$3.891 and HK\$3.879, respectively.
3. The share options were re-classified as employee's interests upon the resignation of a director of the Company on 1 July 2013.
4. The closing price per share immediately before 15 October 2013, the date of offer to grant, was HK\$3.960.

The fair value of the share options granted during the period with exercise price per share of HK\$4.010 is estimated at HK\$1.530 using the Binomial pricing model. Value is estimated based on the risk-free rate at 1.19% per annum with reference to the rate prevailing on the Exchange Fund Notes, a 5.08 year period historical volatility of 51.49%, assuming dividend yield of 1.89% and an expected option life of five years.

The Binomial pricing model required input of subjective assumptions such as the expected stock price volatility. Change in the subjective input may materially affect the fair value estimates.

## Continuing Obligations under Chapter 13 of the Listing Rules

### Banking facilities with covenants relating to specific performance of the controlling shareholder

In accordance with the requirements under rule 13.21 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”), the directors of the Company reported below details of loan facilities, which exist at any time during the period and include conditions relating to specific performance of the controlling shareholder of the Company.

On 28 May 2010, the Company obtained a five-year term loan facility of up to HK\$1,000,000,000 and another term loan facilities of up to an aggregate principal amount of HK\$1,000,000,000 on 23 May 2011, which comprised a five-year term loan facility of up to a principal amount of HK\$500,000,000 and a three-year term loan facility of up to a principal amount of HK\$500,000,000 which are available in RMB, to finance general working capital of the Company. On 30 May 2012, the Company was granted a three-year term loan facility of HK\$500,000,000 to fund the general corporate funding requirement of the Company and its subsidiaries, including refinancing the Company’s existing loans and was further granted a three-year term loan facility of HK\$920,000,000 on 17 December 2012 to finance general working capital requirement of the Company and its subsidiaries.

On 29 October 2009, Superb Wealthy Group Limited (“Superb Wealthy”), a wholly-owned subsidiary, was granted a four-year loan facility of HK\$250,000,000. It also obtained loan facilities of HK\$500,000,000 and HK\$700,000,000 on 28 May 2010 and 5 July 2010, respectively and loan facilities of HK\$400,000,000, HK\$700,000,000 (revised to HK\$400,000,000 in August 2012) and HK\$100,000,000 for a term of three to five years on 16 August 2011, 28 September 2011 and 21 October 2011, respectively. It was further granted loan facilities of HK\$200,000,000, HK\$450,000,000, HK\$500,000,000 and HK\$630,000,000 on 4 January 2012, 7 May 2012, 30 July 2012 and 19 December 2012, respectively and loan facilities of HK\$400,000,000, HK\$600,000,000 and HK\$500,000,000 for a term of two to four years on 22 February 2013, 19 April 2013 and 24 May 2013, respectively.

On 11 April 2011, New World China Finance (BVI) Limited (“NWCF”), a wholly-owned subsidiary, was granted a three-year term loan facility of HK\$200,000,000 and additional facilities in an aggregate amount of HK\$1,200,000,000 and USD38,560,500 with a tenor of three years on 19 June 2012. New World Development (China) Limited (“NWDC”), a wholly-owned subsidiary, was also granted a three-year term loan facility of HK\$500,000,000 on 9 July 2012. On 24 September 2012, Spread Glory Investments Limited (“Spread Glory”), a wholly-owned subsidiary, was also granted a three-year loan facility of HK\$600,000,000. The facilities obtained by Superb Wealthy, NWCF, NWDC and Spread Glory will be utilised to finance the investment in property projects, repay borrowings and fund the general working capital requirement of the Company and its subsidiaries. On 25 July 2011, New World Hotel Management (BVI) Limited, a wholly-owned subsidiary, was granted a five-year term loan facility of HK\$1,000,000,000 to finance part of the consideration for acquiring a hotel management group.

Upon the granting of the above loan facilities, the Company undertook to the lenders that NWD would retain an interest of at least 51% in the issued share capital of the Company, or would maintain 51% of the voting rights attached to the issued share capital of the Company throughout the terms of the facilities. Failure to perform the undertaking will constitute an event of default. If the event of default continues and has not been waived by the lenders, the outstanding liability under the loan facilities will become immediately due and payable and the loan facilities will be terminated.
